Skills

- JavaScript | TypeScript | React.js | Next.js | Shadcn.ui | Node.js | Express | Hono | GraphQL | REST APIs | HTML | CSS
- PostgreSQL | MongoDB | MySQL | Supabase | NoSQL | Firebase
- AWS | CI/CD | Docker | Ansible
- Git | Websockets | Jest | Unit Testing | OOP | Stripe
- Frontend | Backend | Full-Stack | English – *All professional proficiency or above.*

Experience

Full-Stack Developer - Founder ZEPHYR Web Studios Remote, Romania 01/2023 - Present

- Led end-to-end development and business operations, successfully contracting and delivering custom software solutions for 7+ clients.

Senior Projects & Clients:

- **Senior Fullstack Engineer (Contract - ongoing)** - Rebuilding a digital HR assessment platform for a Swiss-based consultancy serving 500+ companies across Switzerland, Germany, and other European markets. Implementing a modular architecture using **React.js**, **Shadcn.ui**, **Node.js/Hono**, **PostgreSQL** and **Supabase**. Collaborating with a team of 5 including senior developers, CTO, and Product Owner. Working directly on architectural decisions for this multi-tenant application serving HR professionals across Europe.
- **ITHG AI (Frontend Lead - Contract)** - Led frontend development for a dental practice management system serving clients across Norway, Iceland, and Sweden. Designed system architecture in collaboration with the development team, dentists in the regions and implemented solutions to streamline practice management operations across Scandinavia.
- **AiFrontDesk Project** - Engineered an AI-powered call center solution with 1.2 sec response latency using **Node.js**, **MongoDB**, **React/Next.js** and **OpenAI API**. Built a multi-tenant architecture supporting concurrent calls across multiple organizations with **Twilio** integration. Implemented **Terraform/Ansible** for infrastructure automation and designed **RESTful APIs** with **WebSocket** for real-time communication, supporting custom knowledge base integration for each business client.
- Architected and implemented custom **Shopify** integrations and management applications utilizing **Node.js**, **PostgreSQL**, **GraphQL**, **Angular** and **React**. Designed **RESTful APIs** for data synchronization and deployed infrastructure using **Terraform** for consistent environment provisioning, streamlining client operations and improving business efficiency.
- Managed complete project life cycles including client consultation, team collaboration, technical architecture, development, and deployment.
- Developed and maintained diverse web solutions including 2 custom management platforms with **Shopify API integrations**, 1 automated e-commerce systems handling daily inventory updates, 10+ WordPress & Webflow websites, and real-time data synchronization solutions supporting 2000+ products.
- Oversaw all aspects of business operations including client relationships, team coordination, project planning, and financial management.

Software Engineer ASSIST Software Suceava, SV, RO 08/2022 - 07/2024

- Collaborated with 10+ teams to develop enterprise applications for E-Commerce, CRM, and Project Management, using the latest technologies such as **React.js**, **Next.js**, and **Node.js**.
- Enhanced E-Commerce performance from 30% to 80% by implementing features with **Next.js** and **advanced Node.js solutions**.
- Refactored and managed the HR platform, updating from **React 16 to React 18** and the latest dependencies. Implemented new business Features using **TypeScript**, **Redux Thunk**, and **Styled Components**.
- Built and maintained a component library using StoryBook, which is utilized across 5+ separate projects by different teams, ensuring consistent design and functionality.
- Led troubleshooting efforts, resolving over 300+ bugs and issues throughout the production lifecycle, ensuring the stability and reliability of applications.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, unit/integration testing.

Software Engineer, Intern Pentalog Remote, Romania 04/2022 - 07/2022

- Designed and implemented a full-stack admin dashboard with data visualization using **JavaScript**, **Node.js**, and **Firebase**.

Data Analyst, Intern BTPProvider Bucharest, Romania 10/2021 - 01/2022

- Developed proficiency with enterprise data tools including **SQL**, **Vertica**, and **Tableau**, earning **Vertica Certification**.
